Producers of Industrial
Hemp Seeds

PRODUCERS OF INDUSTRIAL HEMP SEEDS

AN INNOVATIVE COOPERATIVE ROOTED IN THE HEMP SECTOR FOR OVER 54 YEARS

Created in 1965 and well-established in the Anjou region, HEMP-it is an agricultural cooperative company specialised in producing and marketing industrial hemp seeds.

Led by women and men boasting a solid earth-science and plant culture along with a production site of 8000 m² as well as a growing area including 500 plots, the company proposes its customers in France and internationally, a large range of industrial hemp seed varieties.

USING INDUSTRIAL HEMP IN NUMEROUS AREAS

The cooperative handles all the upstream hemp industry operations tied to production and marketing:

- **Farming of industrial hemp:** proliferation, harvest, roguing...
- **Production:** preservation, drying, hemp seed sorting and selecting.
- **Logistics:** packaging and shipping of bags containing industrial hemp seeds.
- **Marketing:** advice for choosing hemp varieties (seed, straw or fibre-oriented...), sales and follow-up.

Resolutely focused on the challenges of the industrial hemp of tomorrow, it proposes seeds which meet very varied markets and applications:

- **Plastic processes:** automobile, horticulture, household appliances, housing...
- **Foodstuffs:** oil, flour, animal seeds...
- **Cosmetic and pharmaceutical products:** body and hair care...
- **Textile, building, energy...**

A CO-OPERATIVE APPROACH TO GUARANTEE HEMP QUALITY AND PROTECT THE ECOSYSTEMS

Ensure the sustainability of this sector by supplying industrial hemp to French players whilst:

- Protecting the ecosystems to **safeguard the environment as well as animal and human health.**
- **Preserving and looking after** the soil and the land.
- Cultivate knowledge and technological and industrial tools to **guarantee French industrial hemp quality.**
- Open up more by listening and **participating** with the various sector-specific players to “jointly” imagine **sustainable, innovative and respectful solutions.**
